Award winning craftsmanship Custom manufacturing Professional Service

CONTEMPORARY

CHALET

RUSTIC MOUNTAIN

RANCH

OLDESTONE

GATHERING A LOT OF INTEREST

This 5700 sq.ft. retirement home in Bowling Green, KY is peaking much interest. There is a contemporary feel with a traditional rustic mountain

charm; adding to this feel the use of modern window elements with rustic siding finishes. The slopes juxtaposed against the rolling smooth greens of this

golf course home, help it to stand out in its setting. To view the design, floor plans & project images go to **canadian timberframes.com/project/oldestone**

A NEW YEAR IS UPON US

...And with it comes renewed promises and new technologies, products & services to make life amazing. We are all looking at the past year & how we can improve ourselves and our results in 2016. So many people live their lives on max – stressing about the lack of time, lack of convenience and lack of connection to loved ones. We are all looking for short-cuts & support spots in our lives where we can make our lives easier – from apps to digital problem solvers. We are looking for places that bring us solitude & connection to ourselves and our families. We at CTF understand how busy people's lives are and are committed to providing exceptional & responsive service to our clients; this is what we believe in. We know how taxing & rewarding building your dream home or your recreational property can be on top of your full time jobs & family life.

We care about you & want to remove any angst in the process. We are here for our clients – removing unwanted barriers & simplifying your experience. We want 2016 to be amazing for you.

We have built a solid reputation as one of the world's premiere timber frame companies not only because of our quality, precision, and passion but because we truly care about our client's needs.

If you are looking to build that glamorous getaway; a new cottage deck; timber addition; expansion to an existing building; or a complete new customized home for your family, we can assist you with your 2016 goals. Drop us a line @ sales@canadiantimberframes.com or call 1.877.348.9924 - let us know where we can help you out.

Best wishes for 2016

Jeff Bowes

The blog covers all you need to know about building a new home and working with an Architect. View all the posts @ canadiantimberframes.com/blogs/It_is_in_the_Detail

Meet Matt Pilon - Senior Hundegger K2 Technician

Matt, Senior Hundegger K2 technician runs all our timber processing and

joinery manufacturing on our structural timbers. This high-performance machine produces all design components from the simple to complex; from rafters to stairs – it can do it all. The high precision and quality standards offered by our fully automatic Hundegger machine increases our efficiency and competitiveness. With a passion for computerized technology Matt manages the K2, and it's output. Matt started his career

planting forests, he now crafts that tree into spectacular timber frame structures. "The fusion of art, technology & nature is the most rewarding part of my job! Watching a canted beam become the most intricate design feature, never ceases to amaze me" says Matt. Matt and his wife keep busy with their 3 kids enjoying the great outdoor life they have chosen in Golden.
